1	Deliver assigned frontend tasks on schedule	Complete all assigned development tasks within agreed timelines	Completed assigned UI features, bug fixes, and enhancements with timely delivery	95	4 - Exceeds	support tasks, Git commits, code reviews, deployment records
2	Maintain code quality and collaboration	Follow coding standards, participate in code reviews, and resolve issues	Maintained clean code, addressed review comments, and collaborated effectively with the team	95	3 - Meets	Pull requests, code review feedback, team collaboration
3	Improve technical skills and contribute to project success	Learn new technologies and support project improvements	Enhanced Next.js, React, and frontend development skills while contributing to project improvements	90	3 - Meets	Completed assigned features, knowledge sharing, project contributions

Major Achievements

#	Achievement	My Contribution	Impact	Evidence
1	Successfully delivered assigned frontend features, UI enhancements, and bug fixes within project timelines.	Developed responsive interfaces, implemented new features, fixed reported issues, and collaborated with QA and team members.	Improved application usability, ensured timely feature delivery, and supported smooth project releases.	Git commits, pull requests, Jira tickets, and successful deployment records.
2	Improved code quality by following development standards and resolving review feedback.	Refactored components, optimized frontend code, and incorporated feedback from code reviews.	Increased maintainability, reduced defects, and improved overall development efficiency.	Code review comments, merged pull requests, and completed development tasks.

Challenges, Support Needed, and Development Plan

#	Challenge / Gap	Impact	Action	Support Required	Target Date
1	Managing multiple tasks and changing priorities while maintaining delivery timelines.	Occasionally requires additional effort to balance feature development, bug fixes, and urgent requests.	Improve task prioritization, planning, and communication with the team.	Clear prioritization of tasks and timely feedback during development.	2026-12-31
2	Expanding expertise in advanced Next.js architecture and application performance optimization.	Additional knowledge will help deliver more scalable and optimized solutions.	Complete technical learning, practice advanced concepts, and apply them in project work.	Access to learning resources, technical mentoring, and opportunities to work on complex tasks.	2026-12-31

Overall Self-Assessment

Overall Performance Summary	During this review period, I consistently completed my assigned frontend development tasks, delivered features and bug fixes on time, collaborated effectively with team members, and followed coding standards. I remained committed to learning, accepted feedback positively, and contributed to project goals while maintaining quality and professionalism.		
Top Strengths	* Strong ownership of assigned tasks and timely delivery. * Good problem-solving and debugging skills. * Effective teamwork, communication, and willingness to learn. * Commitment to writing clean, maintainable, and responsive Frontend code.		
Priority Improvement Areas	* Enhance advanced Next.js and TypeScript expertise. * Improve application performance optimization skills. * Strengthen system design knowledge and estimation/planning abilities.		
Performance Trend	Improving	Readiness	Ready Now
Preferred Future Assignment	I would like to continue working on challenging frontend development projects involving React.js and Next.js, with opportunities to take ownership of larger features, contribute to application architecture, and further develop my technical expertise.		

Employee Declaration and Submission

- ☒ I confirm that this self-evaluation is accurate to the best of my knowledge.
- ☐ I have provided evidence or explanation for exceptional and below-standard ratings.
- ☒ I understand that my manager may discuss, validate, or adjust this assessment.
